SUMMARY

Software Developer with strong foundation in web development technology and frameworks with hands-on experience of building responsive, real-time, and scalable web applications. Proficient in designing RESTful APIs, WebRTC, Socket.io and integrating third-party APIs.

EDUCATION

VIT Bhopal University *2022 – Ongoing*

B.Tech in Computer Science & Engineering *CGPA: 8.83/10.00*

- **Relevant Coursework:** Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

WORK EXPERIENCE

Full Stack Developer Intern *Noida, UP(Remote)*

Zyntriq AI Pvt. Ltd. *March 2025 – June 2025*

- Worked in team of 2 frontend developers to develop responsive and interactive UI, achieving 95% cross-browser compatibility. with 100% mobile responsiveness on various devices.
- Boosted frontend performance **via state management optimization** and **code splitting** significantly reducing load times, 50% reduction in code duplication by implementing modern architecture with 80% reusable components and React hooks.
- Translated 5+ design mock-ups into pixel-perfect web pages, achieving 98% design accuracy as validated by design team review.

PROJECTS

ZESTYBITE - Food Ordering Application *Repository*

*Food Ordering Platform using **MongoDB, Express.js, React.js, Node.js, RESTful API***

- Engineered a cross-platform full-stack application using React.js and Node.js, built 100% responsive UI and ensured smooth UX.
- Designed and deployed secure user authentication using JWT and bcrypt.
- Spearheaded the design and development of RESTful APIs endpoints and MongoDB schema services provided.

PEERPREP – Collaborative Code Editor *Repository*

*Collaborative web app using**, JavaScript, React-JS, Socket.io, WebRTC, RESTful API***

- Built real-time collaborative code editor with multi-user editing, peer-to-peer audio communication using WebRTC and signaling server using Socket.io.
- Implemented real-time code execution with Judge0 in 7+ languages with 95% compilation rate.
- Automated creation of practice problem statements, reducing problem creation time by 50% .

PAWVAIDYA – Veterinary Consultancy Platform (Group Project) *Repository*

*Veterinary consultancy platform using **MongoDB, Express.js, React.js, Node.js, RESTful API, GitHub***

- Led a 10-member development team working as a full stack developer creating UI components and ensuring reduced code redundancy.
- Integrated RESTful API endpoints from backend and optimized frontend for seamless UX.
- Contributed to 3+ Figma design iterations achieving 95% pixel-perfect implementation accuracy.

TECHNOLOGIES AND TOOLS

Programming Languages: Java, JavaScript, HTML, SQL

Frontend Development: React.js, Bootstrap, Material UI

Backend Development: Express.js, Node.js, Postman, Context-API, React Router, Socket.io, WebRTC

Tools & Platforms: Git, GitHub

Databases: MySQL, MongoDB

CERTIFICATIONS

Oracle Java Foundation Associate *Issued: April 2025*

EXTRACURRICULARS

- **Flipkart Grid National Semi-Finalist (2025)**
- **Top 5% in Cloud Computing Certification – NPTEL (IIT Kharagpur)**
